EXPERIENCE

Frontend Developer in TheEventa

04.2025 - Present

Active participation in the full software development life cycle (SDLC) with a primary focus on designing and implementing frontend layers using React and TypeScript, while providing ongoing support for backend processes and MySQL database administration. Experience includes system architecture modeling, technical documentation, and algorithm optimization regarding computational complexity and performance. Proficient in Git version control and Agile methodologies within the Jira environment, supported by activities in data security, IT system monitoring, and computer simulations. Competencies are further enhanced by expertise in technical data analysis, reporting, and IT infrastructure maintenance to ensure continuous operational stability.

PROJECTS

<https://github.com/Ascher99>

Sports Match Prediction Platform

A full-stack application (FastAPI, React, TypeScript) utilizing machine learning models such as Random Forest and Logistic Regression to forecast football match outcomes across 10 European leagues. The project features an automated ETL pipeline for historical data ingestion and cleaning, advanced feature engineering using rolling statistics, and a responsive interface that displays real-time outcome probability distributions. Key technologies used include Python (Scikit-learn, Pandas), REST API architecture, and Tailwind CSS.

Personal Portfolio

Website Developed a responsive portfolio website designed to showcase professional projects and technical skills. Built using HTML, CSS, and JavaScript, the project focuses on modern UI/UX principles, featuring a clean aesthetic, intuitive navigation, and optimized performance across all device types.

SKILLS

Hard Skills

Programming & Frontend: TypeScript, JavaScript (ES6+), React, HTML5, CSS3, Tailwind CSS

Software Engineering: C++, C#, Algorithm Optimization, Computational Complexity Analysis

Backend & Databases: Python (FastAPI), REST APIs, MySQL, Database

Administration

Data Science & Tools: Machine Learning (Scikit-learn, Random Forest), Pandas, ETL Pipelines

Tools & Methodology: Git, Jira, Agile/Scrum, System Architecture Modeling, Technical Documentation

Soft skills:

- Teamwork
- Empathy
- Problem-solving
- Stress Resilience
- Independence
- Effective Communication
- Responsibility
- Flexibility

Other Information

Driver's License: Category B

Education Status: Current Student

Interests: Information Technology & Emerging Tech

Background: Clean Criminal Record (No Criminal Record)

EDUCATION

- 2019-2022 IX LICEUM OGÓLNOKSZTAŁCĄCE W SZCZECINIE

- 2022-2023 UNIWERSYTET IM. ADAMA MICKIEWICZNA W POZNANIU

Bachelor of
Engineering

- Major: Computer Technologies

- 2023-04.2026 COLLEGIUM DA VINCI

Bachelor of
Engineering

- Major: Computer Science
